

Personal Internal Blockchain Activity Review

Black Screen Display and Public Blockchain Evidence

Prepared for private internal review

10 August 2026

PERSONAL INTERNAL REVIEW — NOT A BANK CERTIFICATE — NOT PROOF OF FUNDS

1. Purpose and scope

This report organizes user-provided Black Screen information and public Bitcoin explorer screenshots for personal recordkeeping. It does not certify ownership of any wallet, attribute third-party mining-pool activity to the user, verify a bank balance, establish lawful source of funds, or confirm conversion of cryptocurrency into fiat currency.

2. Black Screen information supplied by the user

Field	Displayed value	Evidentiary classification
Document-terminal reference	8000040326015780	User-provided display
Foreign-currency balance	EUR 684,820,310.83	Displayed / independently unverified
Domestic-currency balance	USD 0.00	Displayed / independently unverified
Connection label	CONNECTED [100%]	Interface text only
Certificate label	VERIFIED	Interface text only; no certificate chain supplied
Document label	HSBC_UK_RWA_PROFESSIONAL_CURR URRENT.pdf	Embedded/displayed document name

The displayed EUR balance is reproduced only as information visible in the supplied HTML. No bank statement, authenticated bank API response, signed ledger extract, or independent financial-institution confirmation was supplied.

3. Public Bitcoin address activity

The supplied screenshot displays Bitcoin address 1BM1sAcrfV6d4zPKytzziu4McLQDsFC2Qc, labelled **Spider Pool**. The screenshot shows

high-volume mining-pool activity and a displayed balance of approximately 108.77902557 BTC at the time captured.

This address is a public mining-pool address. Activity of the pool is not evidence of the user's ownership or income. A valid income attribution requires a payout transaction from the pool to an address demonstrably controlled by the user.

User-provided SpiderPool address screenshot

4. Submitted Bitcoin transaction

Field	Observed value
Network	Bitcoin
Transaction ID	900d114ebb2cd6f9daae5f4474a0f7dce9292d51c5478810fa21939c19fb885f
Timestamp displayed	22 May 2026, 06:08:22
Input value displayed	0.63647173 BTC
Classification displayed	Batch payment
Confirmation state	Confirmed on the public blockchain
Output pattern	Hundreds of outputs; many visible outputs equal 0.00000546 BTC
Ownership attribution	Not established
Income attribution	Not established

The Miner: Foundry USA label identifies the miner of the block containing the transaction. It does not identify the sender, beneficial owner, or source of funds.

User-provided transaction explorer screenshot

5. Relationship assessment

Question	Finding
Does the blockchain transaction exist?	Yes — the supplied TxID is shown as confirmed.
Does the screenshot prove that the user owns an output address?	No.
Does the SpiderPool page prove user mining income?	No; it shows public pool activity.
Does the Black Screen prove the displayed EUR balance?	No; it is a user-provided interface display.
Is a link between the Bitcoin activity and EUR 684,820,310.83 established?	No.
Can this report be used as a bank certificate or proof of funds?	No.

6. Current internal conclusion

Blockchain transaction: CONFIRMED ON-CHAIN

Mining-pool activity: PUBLIC THIRD-PARTY ACTIVITY

Wallet ownership: NOT ESTABLISHED

Income attribution: NOT VERIFIED

Black Screen balance: DISPLAYED / UNVERIFIED

Blockchain-to-fiat linkage: NOT ESTABLISHED

7. Evidence needed for a verified source-of-funds conclusion

1. The exact payout TxID from the mining pool to the user's receiving address.
2. Proof that the receiving address is controlled by the user, preferably a signed wallet message.
3. Mining account export, payout statement, mining/hosting agreement, or equipment records.
4. A transaction-level schedule reconciling each payout to the declared income.
5. Evidence of any exchange or OTC conversion from BTC into EUR.
6. A bank statement or authenticated institutional record matching the fiat proceeds.
7. Identity and company records sufficient for AML/source-of-funds review.

8. Integrity register
